

Dairy Based Nutritional Powder P1

PRODUCT SPECIFICATION

IFB101 Dairy Based Nutritional Powder P1

General description

Nutritional Based powder P1 is a Stage1 Dairy Based Nutritional basepowder, suitable as an ingredient for nutritional formulations for toddlers 0-6 months old. It is a combination of skim milk with whey, minerals, vitamins, trace elements and vegetable oils. This Nutribase powder is intended for the China, Australia and New Zealand markets. With specific drymix additions it can also be used to formulate products for Codex markets; information on the required additions available on request.

Raw materials used in this product do not contain sucrose, GMO materials, gluten or partially hydrogenated oils and have not been treated by ionizing radiation.

Physical characteristics

Homogeneous creamy or yellow colour free flowing powder with excellent solubility in warm water. It has a clean, bland flavour and odour, and slightly sweet taste.

International Standards Compliance

This Dairy Based Nutritional Powder meets the requirements of:

- China GB standards GB 10765-2010
- Food Standards Australia and New Zealand (FSANZ)
- Halal and Kosher
- CODEX CAC 71-1981

Packaging Information

Packed in tamper evident, strippable barrier bags (multi walled kraft paper bag with barrier polyethylene/nylon/EVOH liner). Outer bags are glued closed for tamper evidence. Inner bags are heat sealed. No staples or metal fasteners are used. Bags are palletised on slipsheets 2200x1160mm, protected by a topsheet and full shrink wrapping. Available on 2200x1160mm pallets on request. Bags are gas flushed with nitrogen (N2) and carbon dioxide (CO2), printed with lot code, manufacturing and expiry dates. No staples or metal fasters are used.

Storage and Shelf Life

Shelf life is 18 months from the date of manufacture when stored in sealed original packaging. Recommended storage is below 25°C and 65%RH, out of direct sunlight and away from strong smelling ingredients.

Detailed requirements: The following section lists the detailed compositional specifications for this product. Other analytical methods may be used to those specified as long as the results are equivalent.

Physical Properties

Parameter	Units*	Max.
Bulk density	kg/l	0.48 - 0.55
Insolubility index	ml	<0.2
Free Fat	%	<1.5
Scorched Particles	/65g	Grade A
Foreign Matter	/65g	Absent
Impurity	mg/kg	<12
Residual oxygen	%	<3

Microbiological Specification

Parameter	Units*	Max
Aerobic Plate Count (35°C)	cfu/g	500
Coliforms	cfu/g	-
Yeasts and Moulds	cfu/g	<10
Salmonella	60 x 25g	Absent
Listeria monocytogenes	10 x 25g	Absent

Coagulase Positive Staphylococci	cfu/g	-
E.coli	cfu/g	-
B.cereus	cfu/g	<100
Enterobacteriaceae	/10g	-
C.sakizakii	30 x 10g	Absent
Clostridium perfringens	cfu/g	-

General Composition

Parameter	Units*	Target
Proximates:		
Energy	KJ/100g	2184
